

Carbon Free Dining

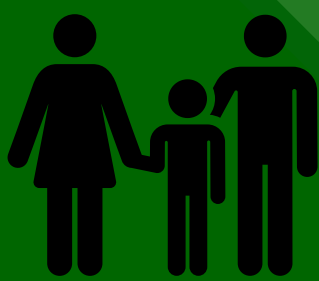

The optional 99p on your bill guarantees to:

1

COUNTERBALANCE

the carbon footprint and foodwaste of all the meals on your bill, making your dining experience more sustainable

2

PROVIDE

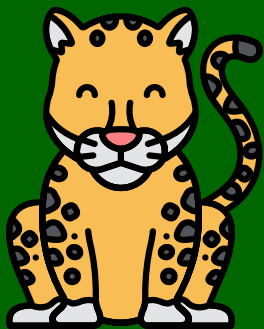

entire aid reliant communities with a sustainable way of life as it comes with tools, infrastructure and education in order to set up sustainable agroforestry farms

3

IMPROVE

the soil quality by raising the water table and helping nutrients be retained - this in turn makes agroforestry farms more successful and speeds an end to poverty for the communities you have helped

4

INCREASE

biodiversity by replacing lost habitat which will encourage insects, birds and animal to return to areas where their habitat had previously been destroyed by deforestation

5

UNITED

Nations Environment partner and partner of the Trillion Tree Campaign. The Green Earth Appeal plants all the trees for Carbon Free Dining and provides legal verification that every single donation plants a tree

6

TOGETHER

with our global network of partner restaurants and their diners, Carbon Free Dining has already planted over 1 million planet saving, life changing fruit trees
